

# Plastic Fishing Expedition

Be part of the solution and not the cause of the pollution.

Join the Warren Catchments Council and Pemberton Hiking and Canoeing in fishing out plastic and other rubbish from the Warren River by canoe.

Don't let our river go down the drain.

Plastic bottles take 450 years to break down, Aluminium cans take 200 years, fishing line 600 years, Styrofoam plates and cups over 50 years and cigarette butts 10 years. All this rubbish accumulates in the Warren River helping destroy water quality and kill aquatic wildlife.

9am Sunday 28th October

Brockman Bridge—Pemberton Northcliffe Road

Booking essential
